SAN DIEGO MESA COLLEGE

Mesa Computer Science Club presents

ARDUINO WORKSHOP

Learn how to get up & running with an Arduino device!

April 26th | 3:00PM - 7:00PM
Location: LRC-435

- A free open-source platform for all devices.
- Arduino can be used as the brains behind almost any electronics project.
- Learn the process of creating an Arduino project from members from three Mesa Clubs.

Co-hosted by the Engineering Club and Mesa Robotics Organization
