Meeting Reflection - 2023 November 8

SYNOPSIS

We met on this day to discuss current and future projects. We discussed methodologies regarding the development and debugging of PDF-decoding software. We found that umalüts are strangely typeset by mandoc's PDF output, such that ü is really "u" with a " overstruct. The entire meeting lasted about three hours, from 10:30 in the morning through 1:30 in the afternoon.

It became clear that a meeting should follow soon.

Details

The meeting began briskly, with several questions and complaints having been raised.

Name	*Date*	*Time*
Jeff	Tuesday	10:11

Roughly, <pi> equates to 3.14 +- 0.001.
